

## Bespoke Clothing Size Chart

- This size chart is for guidance purposes only, and there is a margin of error or +/- 2cm on all bespoke garments.
- Chest measurement is the actual size of the garment and NOT "to-fit" chest, although we do make a **suggested** UK size.
- Waist measurement is the relaxed waist and the garment will stretch up to 15-25cm depending on the size.
- The size you require is really a personal preference and depends on whether you prefer a close or a loose fit. We suggest that you would order a T-Shirt approximately 2" larger than your own chest size, a rugby shirt 2-4", a fleece 4-6" and so on.
- If you are unsure we can provide samples for sizing purposes or please contact us on 01276 855877.
- All measurements are in inches
